

Dear West Hills College Coalinga:

Everywhere you turn there is news about the Swine Flu. Sadly, this new strand of the flu is spreading and all of us should be informed and prepared should we have an outbreak at our campus. Below, you will find two sites where you may find important information about this virus, signs and symptoms, and precautionary measures.

It is vital that you go to a doctor if you feel sick or have any of the symptoms.

If you have any questions, please contact:

Dean Carlos Diniz at ext. 2222

Associate Dean David Reynolds at ext. 2643

Dean Jill Stearns at ext. 2307

Or, if you live in the Residence Halls, contact either Ron Danner at ext. 2373 or Veronica Rosales at ext. 2371.

For NDC, please contact Dr. Hetu at ext. 2960 or any of the office staff.
