Letter from the Accrediting Commission for Community and Junior Colleges (ACCJC) dated June 23, 2017, which included the Commission's decision for reaffirmation of accreditation based on the reports filed by the evaluation team.

- WHC Coalinga-delay reaffirmation of accreditation, issue a warning, and require a follow-up report by October 1, 2018.

Warning

An institution has been determined by the Commission not to meet one or more standards, the deficiencies lead to serious noncompliance with the Standards, and Reaffirmation for 18 months is not warranted. When the Commission finds that an institution is out of compliance with the Commission's Standards to an extent that gives concern to the Commission, it may issue Warning to the institution to correct its deficiencies, refrain from certain activities, or initiate certain activities, and meet the standards.

The Commission may also issue Warning if the institution has acknowledged within its Institutional Self Evaluation Report or Special Report the deficiencies leading to serious noncompliance, and has demonstrated affirmative steps and plans to fully resolve the deficiencies within twelve months. The Commission will specify the time within which the institution must resolve the deficiencies and demonstrate compliance, generally twelve to eighteen months.

During the Warning period, the institution will be subject to reports and visits at a frequency to be determined by the Commission. **If Warning is issued as a result of the institution's comprehensive review, reaffirmation is delayed during the period of Warning. The accredited status of the institution continues during the Warning period.**

In the following circumstances, institutions may not submit a substantive change application:

- In the six-month period preceding a comprehensive evaluation team visit.
- During the period that an institution is on a sanction such as Warning, Probation, or Show Cause until the conditions that resulted in a sanction have been resolved and the Commission has reaffirmed accreditation. If the sanction includes a specific recommendation which cites as a non-compliance the institution's failure to seek substantive change approval of an existing program, delivery mode, or location, then, to the extent of that recommendation only, the institution may proceed with a substantive change application.
- If the institution is subject to withdrawal of accreditation, pending the outcome of administrative remedies.

Changes classified as Substantive Changes Substantive changes include, but are not limited to, the following:

E. Change in Courses or Programs or their Mode of Delivery that Represents a Significant

Departure from Current Practice:

- Change in the mode or location of courses when the change constitutes 50% or more of a program, degree or certificate. This includes the following:
 - Courses offered at a new or different location,
 - Courses offered through distance education or correspondence education;
 - Course additions that constitute 50% or more of a program.

- Addition of courses or programs that represent a significant departure from existing offerings of educational programs or methods of delivery from those offered when the institution was last evaluated

- Addition of programs at a degree or credential level different from that which is included in the institution's current accreditation.
