Subject: Survey Reminder: College Data and Institution-Set Standards

College Data and Institution-Set Standards Survey

Dear Andrea,

This is a reminder to please complete the West Hills College Data and Institution-Set Standards Survey by clicking on the button below.

You are receiving this survey because you are an employee within the West Hills College District. As part of the accreditation standards established by ACCJC, institutions are required to establish Institution-Set Standards (ISS) for Student Achievement. These Institution-Set Standards are intended to both monitor and challenge institutional performance.

This survey is designed to rate the degree to which college employees are familiar with and have engaged with these standards as well as the college data that they address.

Please respond to each question to the best of your ability. A record will be maintained indicating that you have completed the survey, but your responses will not be associated with your name or email address.

Estimated time to complete survey: Less than 5 minutes.

Thank you for your time!
