Type                         Discussion, Information

Continued discussion from September 7 meeting (committee is to start with question 21).

College Council is to analyze the report and submit recommendations to IEAC.

Sent on Behalf Institutional Effectiveness & Accreditation Committee (IEAC)

Please see the attached Committee Surveys from 2016-17, 2017-18 and the District Survey information below.

- Please note that the survey data from the 2017/18 survey may not always reflect questions that were applicable to the work you did as a committee – please only use the portions that reflect your committee work.
- Prepare a brief report that reflects the survey results for IEAC to review.
- Start thinking about questions that you would like to see on your 2018-19 survey and be prepared to work with your IEAC Representative to present those to IEAC in the future.

The survey results are in Tableau, and the 2017 results can be viewed in conjunction with each committee's results from our previous surveys in 2011, 2013, and 2015.

The results are accessible at

<https://public.tableau.com/profile/kyle.crider#!/vizhome/CCES2011-2017forTableauPublic/Introduction>

Different views are accessible from **four tabs at the top of the dashboard**. I have included aggregated results by location (District, WHC Coalinga, and WHC Lemoore) as well as overall ratings in effectiveness and communication by committee. There is also a view for Individual Committee Results, which gives a committee's ratings for each of the survey's questions—this will be the view used by individual committees to assess, analyze, and discuss their results.

### **Curriculum Committee - Chair Sarah Shepard:**

The curriculum committee began meeting August 22<sup>nd</sup> and will continue meeting the first and third Wednesday of the month through the fall semester. One of our first tasks was reviewing committee member roles and responsibilities, specifically the addition of a faculty Articulation Officer. We have changed our voting structure and detailed the duties of the position. Currently, our AO is working to add approximately 65 courses to the UC transfer list and articulate more than a dozen courses with CID. We are reviewing our goals for the year and looking forward to using elumen to facilitate the seamless flow of CORs from origination to mapping learning outcomes. The committee is hosting eluminate Your Life workshops the first and third Wednesday and Thursday of every month. Turnout has been robust and discipline faculty are enthusiastic about using the software to its fullest capabilities.
