Committee Reports

Foundation investment advisors Mike Urner and David Ivarie attended the meeting at North District Center, Firebaugh, to give a report on the foundation's portfolio for the quarter ended September 30, 2013.

Total portfolio value at the beginning of the quarter was \$1,731,119.70 and at the end of the quarter \$1,832,122.02 with a realized loss of \$2,088.87, which came when an investment was sold to cover foundation cash flow requirements. (See attached financial report).

Mr. Urner noted that since the portfolio inception, the first quarter was extremely volatile and the next quarter was more stable. He expects that the current quarter will settle down and allow us to dig out of the hole that was created during that first quarter. Net income is the primary goal of the portfolio and the 3.766 percent actual portfolio income from the last quarter is closing in on the goal of five percent that is the goal in the foundation's investment guidelines.

Mr. Urner and Mr. Ivarie discussed the quality of the portfolio with 58 percent of bonds rated at AAA, which means the quality of the account is very high.

There was also a discussion of the cash liquidity needs of the foundation. Ken Stoppenbrink suggested matching cash flow requirements to bond maturity.

There was also discussion regarding a question by finance committee member David Silveira at the previous meeting about separating the bonds from the rest of the portfolio when reporting. A concern was expressed that this is not standard reporting for Morgan Stanley and Wells Fargo. Much discussion ensued. . It was agreed that beginning at the start of the next quarter, a draft document would be created with equities and bonds reported separately. After review, a decision can be made on whether or not this meets the requirements of the board.

Nina Oxborrow expressed confidence in the abilities of the investment advisors and their expertise.

A discussion was held regarding the WHC Foundation Budget Status and MAA Accounts for August and September 2013.

Warrants

Frances Squire mentioned the larger warrants listed are transfers from the International Education Consortium. The Consortium consist of five (5) colleges, the larger payments are travel and recruiting expenses.
